Tom Talamantez promoted to Vice President of Sales and Marketing

Oviedo, Florida, January 4, 2021 – Technology Solutions Consultants, LLC (TSC) has announced that Tom Talamantez has been promoted to Vice President of Sales and Marketing. In this role, Tom will manage all areas of sales and marketing including direct sales, strategic partnerships, channel development and sales operations. Tom joined TSC in 2019 as the National Director of Business Development to create strategies for business growth which included rebranding, solidifying our solution portfolio and expanding TSC to be a complete solution provider, in addition to a systems integrator and software developer.

Tom has been working in Enterprise Content Management since 2001 in all related disciplines and technologies including records management, imaging, business process automation, cloud services and disaster recovery. During this time, Tom has held multiple positions in all levels of sales, marketing and client engagements, including Director Level, Vice President, Consultant and Business owner. The sum of all of his experience has positioned Tom to be able to advise organizations of all sizes on how to apply technology to business processes for compliant operational efficiencies. In addition, Tom has a wealth of experience creating and orchestrating strategic plans for business growth. Tom has advised clients from every facet of industry including household names in healthcare, entertainment, food & beverage, banking, energy, pharmaceutical and all levels of state and federal government.

“I am really proud of the growth we have accomplished the last two years, especially in 2020. With all the challenges in the marketplace during the last three quarters, we were able to increase revenue, increase our customer base and expand our team with some exceptional talent in both engineering and sales. We have an exceptionally seasoned team with an average of 15+ years in our industry and the brightest minds I have had the pleasure to work with. I am very humbled to take on this new role and build upon the foundation that we have established” said Tom Talamantez in a prepared statement.

TSC is a solution provider that matches up technology to business objectives for organizations seeking to reduce operational cost while increasing efficiencies. Our team has extensive knowledge in the mapping and deployment of technology for organizations across any industry. Founded by Jack Roberts, a veteran in the data and analytical capture and information management industry, ~~the~~ TSC strives to support and enhance ~~your~~ ECM initiatives, exceed expectations, and provide solutions that continue to add value over time.
